A Pioneering Legacy

A Modern Frontier

In the evolving landscape of California wine, Langtry Farms stands out as both a pioneer and a standard-bearer. Family-owned, estate-grown, and certified sustainable, Langtry is rooted in the heart of Lake County AVA—a region rapidly gaining national acclaim for delivering wines of remarkable quality and value.

Langtry holds the unique distinction of being the only winery located in the Guenoc Valley AVA, a historic appellation that adds a singular voice to California's diverse wine story. This exclusive position gives Langtry the ability to showcase a terroir unlike any other in the state.

Industry attention is catching up. Recent articles have shone a spotlight on Lake County's rise:

Wine Business Daily (5/22/25) highlighted how "warm hospitality, innovation, and a varietal with growing market share" are propelling the region forward.

The Drinks Business (7/3/25) reminded readers that "California has volcanoes," underscoring the volcanic origins that make Lake County soils so distinct.

Indeed, volcanic soils are a defining feature of Langtry's vineyards. Combined with the cooling influence of Clear Lake—the largest natural freshwater lake in California—the result is wines with striking structure, minerality, and balance. These qualities make Lake County wines not just unique, but also increasingly competitive on the national stage.

Langtry's mission remains as authentic as the land itself.

With its deep roots, sustainable practices, and distinctive terroir, Langtry Farms embodies the spirit of Lake County: innovative, authentic, and undeniably compelling. As the region rises in recognition, Langtry is proudly leading the way—one estate-grown bottle at a time.

"Our mission is to share the magic of Guenoc Valley through wines that tell its story, to preserve this remarkable place for future generations, and to create experiences that remind us all of what matters most: our connections to each other and to the natural world that sustains us."

- Aukai Manson
